Sage ACT! Premium 2012 System Requirements

All minimum system requirements are based on a single-user environment (one computer accessing a local database). In a shared environment, Sage ACT! Pro is designed to work with up to 10 users and Sage ACT! Premium is designed to work with more than 10 users. Recommended server system requirements are for environments of more than one user. Customer registration and activation are required and you must purchase one license of Sage ACT! per user. Your system must meet the minimum requirements to be eligible for technical support.
